#### Eggs Full of Gold.

Nevada Post.

The old saying as full of meat as an egg, may now be read as full of gold as an egg, when the reference is made to eggs from Cedar county.

The hens down there are veritable gold mines.

Will Shields, who buys eggs at Eldorado and ships them, was here Tuesday night with 900 dozen eggs which he brought here to ship.

He says since the first day of January he has bought and shipped from Eldorado over two hundred thousand dozen eggs, and on one trip to this place he brought over 3,600 dozen.

He has received for shipments an average of 14 cents a dozen—that is to say from eggs alone he has received nearly thirty thousand dollars, most of which clinked into the pockets of the Cedar county hen owners in the form of round gold dollars.

Therefore who doubts that Cedar county hens are veritable gold mines.

#### An Officer's Strange Case.

Washington, June 19.—The preparation of instructions to Ambassador Bayard to make inquiries in regard to the condition of Captain W. C. Miner, U. S. A. retired, brings up again the fact that that officer who is serving a life sentence in a British

prison for murder in London April 17, 1872, is still borne on the rolls of the army. His salary has been for some years paid to R. F. Rice of New Haven, Conn., as conservator. No American has ever been allowed to see him and he is said to be in an English criminal lunatic asylum. He is now 57 years of age. He was born on the Island of Ceylon and appointed an assistant surgeon from New York in 1866. He was retired in 1870, on account of organic disease of the brain consequent upon a sunstroke which he suffered in Florida.
